TO WHOM IT MAY CONCERN:

This is to certify that I have been acquainted with the officers and the personnel of the Lewis Manufacturing Company for the past fourteen years. In my personal knowledge the integrity, high character and reputation enjoyed by these men has been earned by the strict business principles to which they have adhered during all of their business transactions in Bay City.

The Lewis Manufacturing Company is an established institution to which the people of Bay City point with a great deal of pride. Without the slightest hesitation I recommend the Lewis Manufacturing Company to anyone who is considering the erection of a new home.

To Whom It May Concern:

It is a pleasure to testify to the confidence we have in the Lewis Manufacturing Company. The men composing this organization enjoy a high reputation for their responsibility and integrity. Since we all know the Lewis Lumber Company, in the lumber, millwork and home-building industry, and have achieved conspicuous success in this field.

This Company manufactures their product in a large and modern factory, and to our knowledge have shown a constant increase in their volume of business, which is a clear indicator of their product.

We, therefore, have no hesitation in saying to their prospective customers, that full reliance may be placed upon their statements and that they will be found worthy trustworthy in all their dealings.

Geo. F. Young

President.

THERE is an old saying, "A prophet is without honor in his own country." Sometimes this is well. But in many cases the people right in your community, your home town, know you better than anyone else. And because this is true, we are showing you on this page what two responsible banks as well as the Mayor of Bay City think of the Lewis Manufacturing Company.

The Lewis Manufacturing Company was established in 1896 and has done business from the same address for over 30 years. Naturally, such a long record of absolute square-dealing builds confidence, not only with customers but with *neighbors!* As the little town of Bay City believed in the founder of Lewis Manufacturing Company when he produced the first ready-cut home way back in 1906, so the thriving industrial city of Bay City today proudly acknowledges the Lewis Manufacturing Company as one of its oldest and most honorable institutions.

Refer to the letters on this page. Note that the Vice President of the Peoples Commercial and Savings Bank says: *"The men interested in this company represent a very substantial financial responsibility and enjoy an enviable reputation for their business honesty and integrity."* Such testimony as this from the largest local bank means safety and assurance for our customers, for it reflects the character of the Lewis Manufacturing Company.

And next the Honorable J. H. Nelson, Mayor of Bay City, says: *"I have been acquainted with the officers and personnel of the Lewis Manufacturing Company for 14 years. . . . I recommend them to anyone who is considering a new home."* And he comments that our reputation has been earned by square dealing with our customers.

The Bay City Bank—its President, Mr. Young—calls attention to *"lifelong experience"* and to our *"conspicuous success"* through the *"high quality"* of a product produced in a *"large and modern factory (mill)."*

But in addition to these letters, one of the most gratifying indications that these ideals of service to the home builder are being carried out is the large number of Liberty Home owners who send us their orders for homes because a friend or relative of theirs did business with us and has confidence in the Lewis Manufacturing Company. That's the real test of our square deal policy!

Now you know us better, and know the ideals and principles for which we stand. We will be glad to have you write to any of the references given on this page, or to Dun & Bradstreet. For we want you to feel, just as hundreds of other customers feel, that you are doing business with a responsible organization whose every statement can be taken as absolutely true, whose guarantee will be carried out not only to the letter, but in spirit as well.
